Life Force Myco-Force™

Repopulate with naturally occurring, beneficial fungal species

- *Beauveria bassiana*, *Metarhizium anisopliae* & *Lecanicillium lecanii*
- Powerful probiotic
- Use right up to harvest

MICROBIAL PRODUCTS

- Vegetables
- Fruit
- Ornamentals
- Natives
- Turf
- Broadacre Crops
- Pasture

PLANT AMENDMENT

Life Force Myco-Force™

1 kg Net

APPLICATION RATES:

Use	Rate
Foliar Application	1 kg/ha or 5 g per L of water for spot spraying. Apply as required.
Soil Application	1 kg/ha.
Soil Drenching (for small areas with a watering can):	5 g per L of water.

Note: Initial frequent applications may be required to established beneficial soil fungal populations, however for routine use allow 2 weeks between applications.

INSTRUCTIONS:

This product requires sieving when applied with sensitive spray equipment. Prior to application, mix Myco-Force™ with water to make a slurry at a rate of 1kg/10L. Stir/agitate constantly for 2 minutes then stand for 1 hour. Screen if required, then add to fertigation or spray tank. Screen sizes finer than 125 microns (120 mesh) are not recommended.

Ensure compliance with your quality assurance code of practice regarding the use of microbial products before use.

IMPORTANT:

Do not use near silkworm or honey bee breeding. Contains live organisms. Do not mix with fungicides/bactericides, toxic chemicals or soil fumigants. Sanitise spray tank before application. All microbial products should be added to the tank last after all other inputs have been diluted. Ideally, apply in the late afternoon. Do not exceed 60 psi. While handling and applying microbial products protective clothing, gloves and face masks should be worn. Wash hands after use. Avoid spraying close to harvest if produce is susceptible to staining.

STORAGE AND HANDLING:

Immuno-compromised persons (e.g. those undergoing chemotherapy) should not handle or be exposed to microbial products. While handling, brewing and applying microbial products protective clothing, gloves and face masks should be worn. Contains live organisms. Avoid aerosols generated by aeration. Store in cool, dry place away from sunlight and below 30°C (preferably under refrigeration). Use as soon as possible after opening but if this cannot be achieved then refrigerate remainder immediately after use and use within 3 months. Contamination of contents may occur at any time after opening and NTS takes no responsibility for opened product not used immediately. DO NOT FREEZE.

COMPOSITION

Beauveria bassiana
(count 1.0 x 10⁷/g)
Lecanicillium lecanii
(count 1.0 x 10⁷/g)
Metarhizium anisopliae
(count 1.0 x 10⁹/g)

NON-PLANT FOOD INGREDIENTS

6% Fungal Cultures
94% Inert Carrier (sterile talc)

Conditions of Sale: Every care is taken during the manufacture of this product. As no control can be exercised over storage, handling, mixing, application, use, weather, plant or soil conditions, no responsibility or liability for any failure in performance, losses, damage or injuries will be accepted under any circumstances whatsoever.
