

# Sea-Crop®

Organic ocean mineral concentrate

*Naturally-derived concentrate of ocean minerals widely used as an organic bio-stimulant and nutrient source that can increase plant tolerance to stress.*

## Features and benefits

Sea-Crop® contains 89 trace and ultra trace elements. Sea-Crop is naturally derived from ocean water using a special process that protects the enzymes and other beneficial substances that occur naturally in the ocean.

Sea-Crop® contains a wide range of trace and ultra-trace elements and minerals, presented in a highly available form. Many of these elements act as important enzyme co-factors that enable plants to construct resistance and immunity compounds. SeaPack™ is bio-active and can accelerate the break down of soil

nutrients and increase nutrient levels in the soil.

## Application rates and guidelines

Sea-Crop liquid concentrate can be used as a soil drench, transplant solution, in irrigation systems, or can be foliar applied.

On perennial crops, apply in the fall as a soil drench for best results. On annual crops, apply as a drench at planting.

Apply as a foliar throughout the growing season at 2-10 L/ac to enhance immunity and build resistance to disease pressure.

## Typical analysis w/v

Chloride (Cl) .....	12%
Magnesium (Mg) .....	4%
Boron (B) .....	0.5%
Potassium (K) .....	.002%
Sulfur (S) .....	.005%

## Ingredients

Sea-Crop contains 20% solids by weight of which 12% is sodium chloride and 88% is a combination of marine minerals and other organic substances.

4 L NET WEIGHT: 9.700 LBS (4.400 KG)

10 L NET WEIGHT: 24.251 LBS (11.000 KG)

## Safety, storage and handling

Store in a cool dry area out of direct sunlight.

May cause skin irritation with prolonged exposure.

May be harmful if swallowed. Avoid contact with eyes, skin, open cuts or sores. Wash hands after use.

Shake well before opening.

Apply this product only when diluted with water.

DO NOT STORE or SAVE mixed solutions.

Use all that you mix within 24 hours.

Sea-Crop® is compatible with most fertilizers, herbicides, fungicides, etc. However, compatibility and/or performance cannot be guaranteed when combined with other products.

A jar compatibility test is always recommended to ensure proper mix.

This label is believed to be reliable and should be followed carefully. Injury to the treated crop may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Agriculture Solutions, Inc. or seller. Failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the referred purpose, subject to the factors noted above. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Agriculture Solutions' election, either a refund of the purchase price paid by buyer or user for product bought, or a replacement of the product used. To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
